Evolution of the share price & gross distribution

Outlook

Outlook

Strong residential rental market and good operating figures in 1H 2024

- Strong residential letting market with strong demand for qualitative housing has resulted in a record occupancy rate of 98.3% and lfl rental growth of 3.4%.
- Further increase in EPRA earnings by 14.8% to € 9.94 million in 1H 2024.

Supportive long-term trends for the residential rental market

- The residential rental market continues to grow steadily in those cities where Home Invest Belgium is active, mostly thanks to:
 - a long-term urbanisation trend, marked by demographic growth in big cities, including both young and older people, leading to increased demand for housing;
 - an increasing number of tenants in big cities, due to factors including an increasing need for flexibility and a change in attitudes to private property and concepts of urban sharing.

With its future proof portfolio, Home Invest Belgium is well positioned to take a leading role in the residential rental market

- > 50% of the portfolio is younger than 10 years

Outlook

EPRA earnings per share

- For FY 2024 the company expects a further increase of EPRA earnings per share to € 1.15 (from € 1.13 in FY 2023).

Distribution to the shareholders

- The Ordinary General Meeting and the Extraordinary General meeting approved on 7 May 2024 a total distribution to the shareholders of of € 1.12 per share, an increase for the 24th consecutive year. The distribution consists of the combination of:
 - A gross dividend of € 1.01 per share (an increase of € 0.01 compared to € 1.00 for FY 2022);
 - A reduction of the shareholders' equity with € 0.11 per share (an increase of € 0.01 compared to € 0.10 for FY 2022).
- The Board of Directors envisages a distribution policy based on an average increase equal to or higher than the long-term inflation. This is based on:
 - the constant indexed rent flow from existing investment properties;
 - the control of the operational costs of the company;
 - the company's hedging policy, which provides good visibility on interest charges and makes them assessable in the medium term;
 - The existing pipeline of project developments;

Furthermore, the board points to the significant reserves the company has built up over the years as safety cushion for the future.
