## Senior .NET developer (m/f/x) (Woluwe-Saint-Lambert / Hybrid)

### Your role

We are seeking a highly skilled Senior .NET Developer to join our team. The successful candidate will work on a modern, internally developed application that is pivotal to our core company processes. This role involves close collaboration with the Product Owner/IT Manager to ensure alignment with business objectives and technical requirements.

As you grow with us and depending on your interests, you might (for example) take charge of designing our software architecture, work on our Flutter-based mobile app, participate in IoT projects in our residential buildings, implement low-code and AI solutions, work on our Umbraco websites and/or contribute to our Power BI reporting.

### Your profile

- You have excellent knowledge of:
  - .NET Core C#
  - Blazor and WebAssembly
  - Entity Framework Core
  - CQRS with Mediator
- You are capable of working with
  - Azure Cloud (microservices architecture using Kubernetes for container orchestration)
  - Azure DevOps (CI/CD)
  - Microsoft SQL Server
- You have at least 7 years of experience as a Senior .NET developer or a similar role
- You have a Bachelor's or Master's degree in Computer Science, Information Technology, or equivalent through experience
- You are proficient in English, and conversational in Dutch and French
- You have a strong analytical and critical mind
- You respect deadlines and are flexible in order to achieve them
- You take initiative to improve things and you have a strong hands-on mentality

### Our offer

- A full-time contract with attractive salary
- Working with the newest technologies
- A nice working environment where personal development is a priority
- A "choose your own device" policy for your smartphone, laptop and home office
- The ability to work from home up to 4 days a week
- A complete package with pension, insurance and bonus plans
